

MAG625 RECESSED LIGHTING HOLESAWS TUNGSTEN CARBIDE GRIT CAN-LIGHT HOLESAWS

DRILLER'S DUST BOWL
This tool catches debris by forming a seal with the ceiling while not leaving marks on the ceiling

CUTTING DEPTH: 1-1/2"

- Smooth, precise cuts in drywall, plaster, wood, acoustical tile, ceiling tile, stucco, plastic, fiber cement and sheet metal
- Continuous cutting rim allows for clean cuts with reduced vibration and improved performance
- TUNGSTEN Carbide Grit Edge reduces dust and increases durability by making the holesaw not catch onto the metal or wood lathe in plaster
- OPEN Ended backing design makes plug removal easy and efficient while creating a fast start to the next hole
- Accepts standard 5/8"-18 thread ARBORS with 2 pin mounts (available from MAGBIT)
- Compatible High Speed Steel & Carbide Tipped pilot drill bits are also available from MAGBIT
- Dust Bowl protector prevents overdrilling and provides additional protection for the user
