

MAG-BIT®

Tungsten Carbide-Tipped Hole Cutters

- Outperforms holesaws, more cuts for your buck than hole saws.
- Faster cuts in sheet metal, stainless steel, iron, cast iron, copper, abrasive materials such as high density resin and metal plate up to 3/8" thick.
- Safety collar prevents the cutter from busting through the hole and damaging the work.
- Heavy duty spring automatically ejects the plug after cutting.
- Overlapping cuts not a problem.
- Achieves cleaner rounder and more burr free cuts than hole saws.
- Cuts dry, use MAG-LUBE cutting fluid for even better results.
